Hotel Data ANALYSIS

Documentation

Requirement Build visual report/ dashboard to analyze the hotel dataset using power Bi

Tech : Microsoft SQL Server Management Studio

Power –Bi

Questions we are exploring from data set and visualize in power Bi are as follows:

Q1 : Is hotel revenue growing by year?

Q2: is there need to increase the parking lot size?

Q3: what trend can we see in data ?

Data Analysis Project Pipeline

Build the database → Develop the SQL query → Connect power bi to database
